Write a letter to the Consumer Redressal Forum seeking justice.

- e) Many street lights on CBC Road, Powai have not been working for the past 2 months and the complaints to authorities have not been attended to. Write an RTI query.
- Q:5 (a) Draft a business proposal to be made by Smooth Language Training Centre to A M College to start a part-time "Language Training Course" on their premises on a revenue sharing basis.

O R

- (b) Your Manager found that the number of complaints related to the refrigerator has increased in a particular area. She has formed a committee of Staff to study the reason behind it. Draft the committee's report and the covering letter for the same.
- Q:6 Draft the Notice and Agenda of the 25th Annual General Meeting of Love India Housing Ltd. Also draft the following Resolutions:
 - i) Approval of the Annual Report
 - ii) Appointment of the Company Secretary
- Q:7 Summarise the following passage and give a suitable title:

 With its emphasis on breathing practices and meditation—both of which help calm and center the mind— it's hardly surprising that yoga also brings mental benefits, such as reduced anxiety and depression. What may be more surprising is that it actually makes your brain work better.

When you lift weights, your muscles get stronger and bigger. When you do yoga, your brain cells develop new connections, and changes occur in brain structure as well as function, resulting in improved cognitive skills, such as learning and memory. Yoga strengthens parts of the brain that play a key role in memory, attention, awareness, thought, and language. Think of it as weightlifting for the brain.

Studies using MRI scans and other brain imaging technology have shown that people who regularly did yoga had a thicker cerebral cortex (the area of the brain responsible for information processing) and hippocampus (the area of the brain involved in learning and memory) compared with nonpractitioners. These areas of the brain typically shrink as you age, but the older yoga practitioners showed less shrinkage than those who did no yoga. This suggests that yoga may counteract age-related declines in memory and other cognitive skills. Research also shows that yoga and meditation may improve executive functions, such as reasoning, decision making, memory, learning, reaction time, and accuracy on tests of mental acuity. All exercise can boost your mood by lowering levels of stress hormones, increasing the production of feel-good chemicals known as endorphins, and bringing more oxygenated blood to your brain. But yoga may have additional benefits. It can affect mood by elevating levels of a brain chemical called gamma-aminobutyric acid (GABA), which is associated with better mood and decreased anxiety.

Meditation also reduces activity in the limbic system—the part of the brain dedicated to emotions. As your emotional reactivity diminishes, you have a more tempered response when faced with stressful situation.

Total Marks: 100

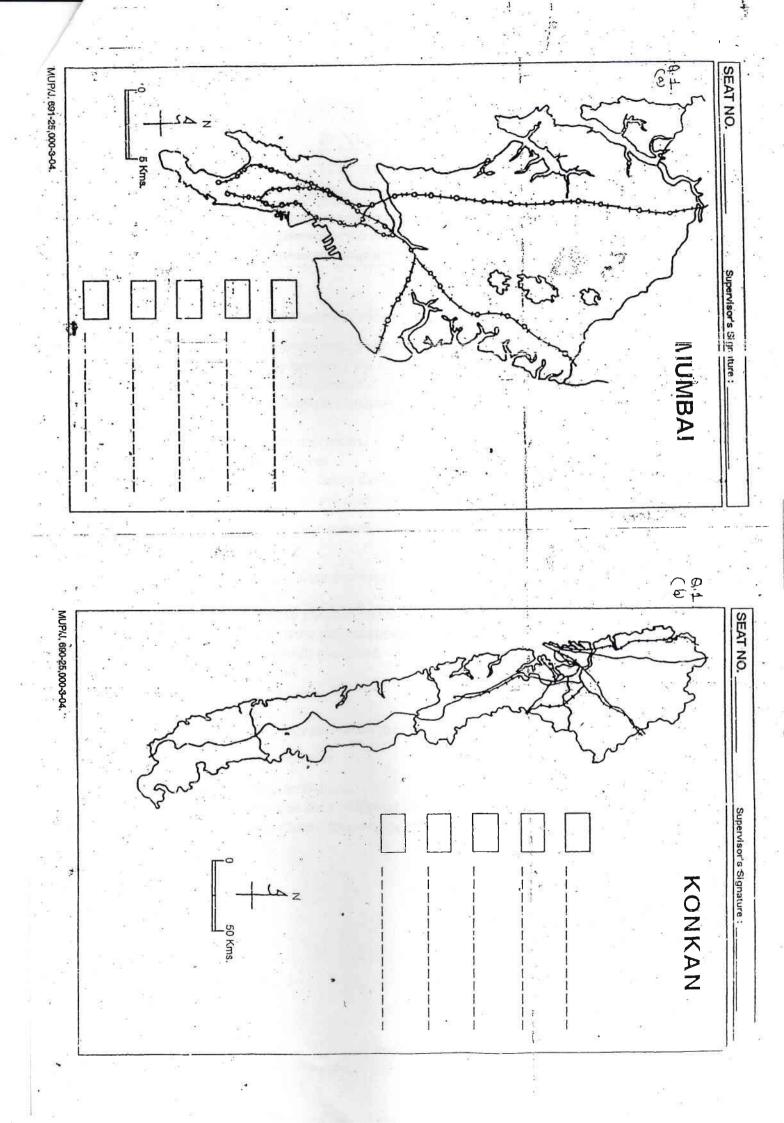

Instructions:

- All Questions are COMPULSORY.
- Numbers to the right indicates marks allotted per question.
- Attach the Map supplement to the main answer book.
- Draw appropriate figures and diagrams wherever applicable.
- Q.1. (a) On the Outline map of Mumbai provided to you, mark and name the following (10)
 - An area having environmental problems due to cattle sheds.
 - An area affected by landslides and rockfalls. ii.
 - An area famous for Wonderland. iii.
 - An area facing the problem of marine erosion. iv.
 - A major slum area. ٧.
 - An area famous for water sports. vi.
 - vii. A creek having mangroves.
 - An area subject to air pollution due to chemical and petrochemical industries. viii.
 - An area subject to noise pollution due to textile industry. ix.
 - (b) On the Outline map of Konkan provided to you, mark and name the following (10)
 - i. A hot spring site.
 - ii. An area subject to sewage discharge.
 - iii. A bird sanctuary.
 - An area subject to air pollution due to fisheries. iv.
 - An area subject to noise pollution due to recreational activities. ٧.
 - A port which frequently gets silted. vi.
 - A major beach resort. vii.
 - viii. A fort site.
 - A pilgrim centre. ix.
 - A conventional energy generation site. х.
- Q. 2. Attempt any two of the following:
 - (10)a) Write a detailed note on E-Waste. -(10)b) 'Solid Waste needs to be dealt with great care'. Discuss. c) What is Bio-Medical Waste? What are the different methods used for Bio-Medical Waste

(10) Management?

Q. 3. At	ttempt <u>any two</u> of the following:	
b)	Describe food hunger? Explain the factors responsible for Malnourishment and Hur India. Write a detailed note on Ozone layer depletion. What is noise pollution? Explain the causes, impacts and measures take to control pollution.	(10) (10) noise
Q. 4. Att	tempt <u>any two</u> of the following:	(10)
ן (ט	Elaborate on the New Tourism Policy of India. Discuss on the advantages and disadvantages of tourism as an economic activity. Write a note on Medical Tourism and MICE Tourism	(10)
	empt <u>any two</u> of the following:	(10)
	Deliberate on 'Save the Western Ghat' movement and the 'Save Jaitapur' Movement. Elaborate on major environmental protection acts in India. Elucidate on the application of GST in Environmental Management.	(10) (10) (10)

Maths & Stats.

Time: 3 hours Marks: 100

N.B.:

- 1. All five questions are compulsory.
- 2. Each question carries 20 marks and each sub question carries 5 marks.
- 3. Use of a simple calculator is allowed.
- 4. Use of a scientific calculator, digital diary or a mobile phone is not allowed.
- 5. Graph papers will be provided on request.

Attempt any FOUR of the following. Q.1

- Find derivative of the following functions a
 - i) $y = 5^x + 3x^4 2\sqrt{x} + 100$
 - ii) $y = \frac{(x^2+4x+5)}{(x+1)}$
- If $f(x) = x^2 + 2x 7$, find 'x' if f(x) = f(x+1) + 55 b
- The total revenue function is given by $R=x^3 24x^2 + 189x + 100$. 5 С Where x = demand. Find x for which the revenue is maximum.
- The total cost function is given by $C = x^3 + 2x^2 + x + 3$. Find average d 5 cost and marginal cost functions when x = 5.
- i) Find the elasticity of demand if the marginal revenue is 36 and the 5 e average price is 45.
 - ii) Find the marginal revenue if the price is 75 and the elasticity of demand is 3.

Q.2 Attempt any FOUR of the following.

- The simple and compound interest for 2 years on the same principal, at the same rate are Rs. 12,000/- and Rs. 12,480/- respectively. Find the principal amount and the rate of interest.
- i) Find the future value of Rs. 50,000/- kept in a fixed deposit b account, after 3 years at 8% rate of compound interest p.a.
 - ii) Find the present value at 5% p.a. rate of interest of Rs. 15,000/payable 3 years from now.
- Ms. A deposited Rs. 10,000/- at the end of each quarter at 12% c compound interest p.a. Find the amount he will receive after 2 years.
- Ms.B took a loan of Rs. 30,000/- with 10% interest per month, to be 5 d repayment in 5 months. Calculate the EMI using reducing balance method.

e	шошш	Mr. C bought a T.V. set with cash payment of Rs. 10,000/- and 4 monthly installments of Rs. 5,250/- each. Find the cost of the T.V. set, if the company charges 12% interest, compounded annually.

d Calculate Laspeyre's, Paasche's and Fisher's Index price Number from the following data

Commoditi	Base	e Year	Current Year		
es	Price	Quantity	Price	Quantity	
P	70	20	90	30	
Q	60	10	65	20	
R	50	30	72	50	
S	90	60	100	90	

e Construct Index Number using Family budget method for the following data:

Commodity	Base year price	Current year price	Weights
A	10	17	10
В	15	23	20
С	12	18	10
D	13	16	10

Q.5 Attempt any FOUR of the following.

- a If mean and variance of a Binomial distribution are 4 and 2.4 respectively, find probability that number of successes is i) Only 1, ii) at most 1
- b A fair die is rolled 3 times with probability of successes is equal to 0.5. Find the probability of odd number appear on the uppermost face is i) exactly once ii) exactly two times iii) less than three times.
- c Define Poisson Distribution for non-negative values by considering parameter 'm' and write properties of Poisson Distribution.
- d For a Poisson distribution if P (x = 3) = P (x = 4) find the mean and 5 hence find i) P (x = 0), ii) P (x = 1), iii) P (x \le 1). [Given $e^{-4} = 0.018$]
- e If X is a normal variate with mean 100 and standard deviation 10. Find i) P ($x \ge 120$) ii) P ($x \le 120$) iii) P ($x \le 120$) [Given: area under the curve between z = 0 and z = 2 is 0.4772]
